To the Board of Directors  
Seneca County Industrial Development Agency  
A Component Unit of Seneca County, New York

In planning and performing our audit of the financial statements of the Seneca County Industrial Development Agency, A Component Unit of Seneca County, New York as of and for the year ended December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the Seneca County Industrial Development Agency, A Component Unit of Seneca County, New York's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. Given these limitations during our audit, we did not identify any deficiencies in internal controls that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Current Year Deficiencies in Internal Control:**

We did not identify any current year deficiencies in internal control.

**Prior Year Recommendation:**

The following prior year recommendation has been implemented to our satisfaction:

1. There were no costs allocated to the Seneca County Economic Development Corporation relating to the Depot in the current year.

This communication is intended solely for the information and use of management, the Board, audit committee, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.
